Epithelial Cell Death

M65® ELISA
M65 EpiDeath® ELISA

Measurement of intact and cleaved CK18
M65® ELISA and M65 EpiDeath® ELISA measure total cell death (necrosis and apoptosis)

M30 Apoptosense® ELISA
M30 CytoDeath™ ELISA

Measurement of cleaved CK18 only
M30 Apoptosense® ELISA and M30 CytoDeath™ only measure apoptosis
Screen pro-apoptotic drugs and specifically measure apoptosis in epithelial cancers.

- **Cell cultures**
  - Multicellular spheroids

- **Human xenografts in mice**
  - Detection of tumor apoptosis in plasma and tissue

- **Research studies**
  - Detection of tumor cell death in serum/plasma and tissue
