

Product: CMIC High Sensitivity Human L-FABP ELISA
Catalog #: 006
Lot #: 004-18GT
Expiry date has been extended to October 31st 2020

Dear Sir/Madam,

With this letter, we would like to inform you that we have extended the expiry date of the product **High Sensitivity Human L-FABP ELISA (Catalog number 006), Lot #004-18GT**, from June 30th, 2020 to **October 31st, 2020**.

In order to extend the expiry date the following validation tests were performed and passed the pre-set criteria. These tests were performed on July 15, 2020.

- Standard Curve validation
- Limit of Detection
- Repeatability
- Precision

Our internal quality control confirms that High Sensitivity Human L-FABP ELISA specifications are met when tested one month after the expiry date. Quality control performed on Lot # 004-18GT makes us confident that it will meet the criteria with the extended shelf life. The extended expiry date is valid for kits for **Research Use Only**.

Sincerely,

Olivia Stricker
